Yiwu Yimeng Co., Ltd. specializes in R&D and design, producing and customizing sleep masks and U-shaped pillows. We integrate product development, manufacturing, and sales for daily-use for daily-use goods, covering sleep, naps, business trips,and long journeys with comfort-focused product solutions.

Products include 3D blackout, soft, and adjustable eye masks, memory foam U-shaped pillows, travel pillows, and matching sets. We focus on fit, nose-bridge design, light blocking, and comfort, plus pillow support, fabric feel, filling, and portability, meeting the needs of different users and usage scenarios.

Our factory manages each step, from material selection through cutting, sewing, filling, shaping, inspection, and shipping. We check size, stitching, appearance, feel, and usability. Process improvements help us raise product quality and efficiency for brands, traders, online sellers, and gift buyers.

We develop coordinated product ranges for different markets, refining fabric feel, styles, colors, and storage options. Matching eye masks and U-shaped pillows improves comfort, portability , and packaging, giving customers more choices.

We offer OEM and ODM services tailored to customer needs, including styles, colors, fabrics, sizes, and packaging. We also design logos, patterns, and gift boxes for each brand. Products can be customized alone or as sets for retail, travel, hotels, corporate gifts, and private-label orders.

We prioritize communication, sampling, detail approval, and order follow-up, developing products for target markets, usage scenarios, and design requirements. We balance comfort, appearance, and practicality through material and structural choices, creating distinctive masks and U-shaped pillows.

We put customer needs first, with quality and integrity at the core , while following sleep and travel product trends. From development to packaging and delivery, we focus on details, offering professional, flexible customization services for more comfortable daily rest and travel.

We value long-term partnerships and ongoing communication, sharing updates on samples, packaging, orders, and delivery. Feedback and market needs guide ongoing improvements, for display, packaging, and product sets across channels.
